

Chung Hong Electronics Poland Sp. z o.o.
ul. Innowacyjna 4
55-040 Biskupice Podgórne

Dear Sir or Madam,

In reference to the requests for proposal no.:

- 01/2017, title "Delivery of a set of components necessary to produce a demonstration line in the field of the visual verification process using electromagnetic radiation with the ability to penetrate through the body opaque in the production of specialized automotive electronics components in the automotive industry"
- 02/2017, title "A set of elements necessary to produce a demonstration line for obtaining unpolluted (pollution-free) conditions during the course of the technological process in the production of specialized automotive electronics components in the automotive industry."
- 03/2017, title "A set of elements necessary to create a demonstration line in the area of the process of the final implementation of the components together with a functional verification of the correct functioning of the products in the production of specialized components of consumer electronics in the automotive sector."
- 04/2017, title "Set of elements needed to create a demonstration line in the area of the surface assembly process along with mechanical verification of the complementarity of the products with the template in the production of specialized consumer electronics components in the automotive sector."

I would like to inform that Contracting Authority corrects the editorial error included in the condition defined in the part „Ocena Oferty / Evaluation of offers” of Requests for proposal, on the wording:

“After finishing the evaluation of received offers the contracting authority will propose the best tenderer to conclude a conditional agreement for contract implementation. **A condition for the entry into force of the agreement conditional to the selected Contractor will be the signing of the agreement by the contracting authority’s project** under Sub-measure 1.1.1 Industrial research and development work implemented by enterprises, within the framework of the Operational Programme Smart Growth 2014-2020.”

As a result, the condition now reads as follows:

“After finishing the evaluation of received offers the contracting authority will propose the best tenderer to conclude a conditional agreement for contract implementation, **which will enter into force on the day following the date of submission of the application documentation by Contracting Authority** under Sub-measure 1.1.1 Industrial research and development work implemented by enterprises, within the framework of the Operational Programme Smart Growth 2014-2020.”
